

MINUTES OF THE MID-VALLEY GENEALOGICAL SOCIETY

8 March 1975

Meeting was called to order at 1:10 PM.

Minutes were read and approved.

Treasurers report read. \$188. balance at meeting time last month. Dues received \$38. and some income from coffee dish and sale of kits. Balance to date after expenses \$212.14.

Reported that the Society now has 55 members.

Books ordered and received and found faulty by the several members who examined them and wrote comments. A letter was sent to the company with the criticisms and either return privileges or an adjustment requested. To date, there has been no answer.

Mention made of Arlene Ekle seminar 15 April LBCC Forum room no 113 7-10 PM with a charge of \$3. and subject will be census records and how to use the various types besides the Federal.

Workshop study areas set up so that members having pertinent material to share will know when to bring them to share but study is not limited to these areas, only.

Hazel Beals wishes to make a loose type notebook of 7 generation charts of those members who wish to fill these out for her. This will not be the property of the Society. However it is to be examined by members to aid them in finding those searching related names. These 7 generation charts will cost 3 cents apiece.

A query list by members in a group exchange may help each other.

A motion was made and passed to accept Xeroed All Name Indexes of volume one of the Gazette Times 3 May 1909-3 May 1910 and compiled by Susan Taylor with all names of members and officers included and to be used as one of the Mid-Valley Genealogical Society's Bi-Centennial projects. There are to be four copies made at Susan Taylor's expense and entered into the Corvallis Library; the OSU Library; the State Library and the Historical (State) collection.

There was some discussion of the display case Corvallis Library but this was not resolved.

The meeting adjourned with a coffee break and then Ianthe Smith gave an interesting talk on her family history.

Susan Taylor, Secretary.
